

## **TUFF6™ & TUFF8™**

TUFF 6 & TUFF 8 mining ropes offer an effective solution to one of the most demanding rope applications in the mining industry.

# TUFF 6 & TUFF 8

6 & 8 STRAND ROPES

DRAGLINE APPLICATIONS

INCREASED SERVICE LIFE

REDUCED MACHINE DOWNTIME

## the product.

With six or eight outer strands, Bridon-Bekaert's TUFF 6 and TUFF 8 mining ropes offer effective solutions to one of the most demanding rope applications in the mining industry. Manufactured with class leading machinery at our Newcastle ropery, TUFF 6 and TUFF 8 ropes are recommended for use in dragline applications and are designed to withstand the pressure placed on them by mining equipment.

## benefits.

- ✓ Increased performance.
- ✓ Reliability
- ✓ Longer service life
- ✓ Reduced machine downtime

Diameter		Average Mass		Minimum Breaking Force @1770MPa
